Emad K. Al-Karablieh: is Professor in the Dept. of Agricultural Economics and Agribusiness Management at the University of Jordan, Jordan. He was a former Director of Water and Environmental Research and Study Center (WERSC) at the University of Jordan and Head of Dept. of Agr. Econ.& Agribusiness Management. His academic interests include Natural Resource Economics, Project Appraisal, Financial Analysis, Water Economics, Environmental economics, Risk analysis and economics of Integrated Water Resource Management. His professional consultations cover financial analysis, investment appraisal environmental economics of natural resources, water and technology adoption. He published more than 45 articles appeared in peer reviewed international and regional journal such as *Agricultural Water Management*, *Water, Agricultural Systems*, *Journal of Arid Environment*, *Quarterly Journal of International Agriculture*, *Water Policy*, *Journal of Agricultural Sciences and Technology*.

He is a coauthor of the Arab Water Report-Towards Water Security in the Arab Region, Issues of cost effectiveness prepared for UNDP in 2011. Also he is a coauthor of the peer reviewed RTF book *Water Resources in Jordan (Evolving policies for development, the environment and conflict resolution)*, Edited by Munther J. Haddadin and published by Resources for The Future (RTF), Washington DC, and a contributor in the book *Liquid Asset An Economic Approach for Water Management and Conflict Resolution in the Middle East and Beyond* written by Franklin M. Fisher, the Professor of Microeconomics, Massachusetts Institute of Technology and published by Resources for The Future.

He has been recruited in many international funded research projects as a team leader or as researcher such as USAID-ISSP project, IFAD-dHRS project, GLOWA JR III, Meditate, GLOWA Jordan River II, SMART II and Harvard Middle East Water Project, UNDP-climate change project. He has worked with many international agencies such UNOEP, USAID, UNDP, World Bank, AFD, ICARDA, IFPRI, GTZ, IFAD and FAO. For five years, he served as team leader of the socio-economic component of ICARDA Badia Benchmark of water harvesting project.

He participate as a financial analyst in a conducting many water supply, and wastewater investment appraisal in Jordan and Yemen and other countries. In addition he participates, as a lecturer (trainer), in several training courses in finance organized by ESCWA, NENARACA, CARDNE, and NCARE, in Jordan, Syria, Lebanon, Tunis, Egypt, Libya and Morocco. The fields of training were environmental economics, water economics, agricultural finance, financial analysis, investment appraisal and agricultural policy. He has excellent computer programming skills, with primary expertise in mathematical programming and economic modeling, production theory and risk analysis.

RESUME of Prof Dr. Emad Al-Karablieh

Personal Information

Full Name: Emad Kamel Mohammad Al-Karablieh
Nationality: Jordanian
Languages: Arabic is a native language, Fluent in English & German
Date of Birth: Dec. 20. 1963
Place of Birth: Tarqumia
Marital Status: Married
Profession: Natural Resources Economist

Address

Business Address:

Dr. Emad Al-Karablieh
 Dept. of Agricultural Economics & Agribusiness
 Faculty of Agriculture, University of Jordan
 Postal Code 11942, Jordan
 Tel. + 962 6 5355000-Ext 22477
 Fax. + 962 6 5355 577
 Email: karablie@ju.edu.jo

Private Address:

Dr. Emad Al-Karablieh
 P. O. Box 13899
 Postal Code 11942
 Amman, Jordan
 Tel. + 962 6 51 66 33 6
 Mobile + 962 799 203 666
 E-mail: karablieh@yahoo.com

Education:

Ph.D. in Agribusiness Management, Department of Agricultural Economics. Faculty of Agriculture. Christian-Albrechts-University at Kiel. Germany. 1991 – 1995.
PNDS German Language Certificate, Goethe Institut, Mannheim, Germany. 1990 - 1991
M.Sc. in Agricultural Economics. Dept. of Agricultural Economics and Extension. Faculty of Agriculture. The University of Jordan, Jordan. 1987 - 1990
B.Sc. in Animal Production. Dept. of Animal Production. Faculty of Agriculture. The University of Jordan, Jordan. 1982 - 1986

Major and minor subjects in the Ph.D. Program

The Ph. D. dissertation is in the subject of Agricultural Business Management with the Title: "An Assessment of the Impact of Agricultural Technology on Output in the Rainfed Farming Areas in Jordan."

The major and minor subjects in the Ph.D program were:

Major Subject: Agribusiness Management
 1. **Minor Subject:** Market Policy
 2. **Minor Subject:** Quantitative Methods of Sector Analysis

Employment History

Feb 2012: Full Professor at Dept. Agricultural Economics & Agribusiness Faculty of Agriculture/ University of Jordan, Amman. Jordan

Job description: Full-time lecturer for the courses "Advanced Agribusiness Management, Agricultural Project Appraisal, Agricultural Accounting & Finance, supervisor of MSc. student

July 2010-Jan 2012: Associate Professor at Dept. Agricultural Economics & Agribusiness Faculty of Agriculture/ University of Jordan, Amman. Jordan

Job description: Full-time lecturer for the courses “Agribusiness Management, Agricultural Project Appraisal, Agricultural Accounting & Finance,

Oct 2009:- June 2010 the Director of Water and Environmental Research and Study Center at the University of Jordan

Job description: Coordinated water and environmental research at national, regional and international levels by getting the center efforts focused on water problems through research, education, training, community services, outreach and international cooperation

Nov 2007:- Nov 2009 Head of Department of Agricultural Economics & Agribusiness Department, Faculty of Agriculture/ University of Jordan, Amman. Jordan

Job description: Full-time Department Head & lecturer for the courses “Agribusiness Management, Agricultural Project Appraisal, Agricultural Accounting & Finance

Oct. 2005–to Nov 2007: Associate Professor at Dept. Agricultural economics & Agribusiness Faculty of Agriculture/ University of Jordan, Amman. Jordan

Job description: Full-time lecturer for the courses “Agribusiness Management, Agricultural Project Appraisal, Agricultural Accounting & Finance

Sept. 2000–to Sept. 2005: Assistant Professor at Dept. Agricultural economics & Agribusiness Faculty of Agriculture/ University of Jordan, Amman. Jordan

Job description: Full-time lecturer for the courses : Agribusiness Management, Advanced Production Economics, Agricultural Project Appraisal, Practical Training in Agricultural Economics”

Sept. 1997–Sept. 2000: Assistant Professor at Faculty of Agriculture/ Jerash Private University, Jerash. Jordan

Job description: Full-time lecturer for the courses “Agricultural Price Analysis, Production Economics, Agricultural System Analysis, Agricultural Project Appraisal, Mathematical Economics, Agricultural Finance and Practical Training in Agricultural Economics”

Jan.1996 - June 1997: National Professional Officer for Socio-Economics, West Asia Regional Program at the International Center for Agricultural Research in the Dry Areas (ICARDA). Amman Regional Office.

Job Description: National Professional Officer is mainly responsible to follow up the socio-economic research activities (including, sheep fertility, PMSG technology, injection of vitamin AD₃E, feed block, and early weaning technology) in the Mashreq countries and for establishment a Socio-Economics Network for West Asia countries. Also, assist ICARDA scientists and NARS specialists to implement, analyze and to produce reports and publications on the adoption and impact of barley and livestock technologies that are used in the Project.

Sept. 1995 - Jan. 1996: Part-time Lecturer at Faculty of Agriculture/ University of Science and Technology, Irbid. Jordan

Job description: Part-time Lecturer for the courses: “Farm Management, Rural Development and Agricultural Economics”.

Courses Taught

Agricultural Projects Appraisal Advanced Agricultural Finance Agribusiness Management II Production Economics Practical Training in Agricultural Economics Water Economics	Agricultural Finance Agribusiness Management I Farm Management Advanced Production Economics Environmental Economics
---	--

Participation in International Projects

1. **UNDP, Arab Water Report 2012- Towards Water Security in the Arab Region: Issues of Good Governance and Cost Effectiveness. UNDP-Dubi in 2011-2012. Water Governance Program for Arab States.** Co-authors with top Arab water specialists. This report outlines the importance of adopting good and effective water governance as an inevitable prerequisite for achieving water security and sustainable human development in the Arab region. Introducing concepts and approaches of effective water governance, an analysis of the water situation in Arab countries is provided from a holistic perspective that takes into account the economic, social and institutional frameworks as well as decision-making process
2. **USAID, Disaggregate Economic Value of Water in Irrigated Agriculture in Jordan from Perspective of Value Chain Analysis.**(June 2011-May 2012). Institutional Support and Strengthening Program (ISSP). Eco-Consult- Jordan. The main objective is to determine the value of water across the various sectors of Jordanian society and economy. It is expected that the results of the study will help to inform decision makers in governmental bodies and the private sector about their decisions regarding the use and allocation of this scarce and valuable resource
3. **EU (Pre-identification mission: support to agricultural development in Jordan).** Dec 2011-April 2012. Contract N° 2011/278635 – version 1. FRAMEWORK CONTRACT BENEFICIARIES 2009. EuropeAid/127054/C/SER/multi - LOT N°1 : Rural development & food security.
4. **AFD, JORDAN WATER DEMAND MANAGEMENT STUDY:**(June 2010-June 2011). Water demand management in Mediterranean countries: Thinking outside the water box!. Jordan case study. The French Development Agency (AFD). The main objective of the study is to bring economic analysis into Jordan water policy and help prioritizing actions according to their cost-effectiveness.
5. **UNDP-Climate Change Project (2010-2011).** Macro-level Assessment of potential direct and indirect impacts of climate change on socio-economic factors for “Assessment of Direct and Indirect Impacts of Climate Change scenarios on water availability and quality in the Zarqa River Basin”. In cooperation between Queen Rania Al-Abdullah Center for Environmental Sciences & Technology (QRACEST) Jordan University of Science and Technology (JUST) & Water and Environment Research and Study Center (WERSC).University of Jordan.
6. **SMART Project Phase II (2010-2012):** SMART II Integrated Water Resources Management in the Lower Jordan Rift Valley: SMART II) Sustainable Management of Available Water Resources with Innovative Technologies with Karlsruhe Institute of Technology (KIT). Work package number 7 (Socio-Economic Analysis) Activity type: Research, Development and Implementation. Objectives of Socio-Economic Analysis. Quantify costs and benefits of SMART-IWRM technology lines, Rank technologies for the mobilization of additional water at local level in terms of cost-effectiveness, Evaluate alternative IWRM strategies by applying the cost-benefit analysis at watershed level, Assess the financial feasibility of alternative IWRM strategies, Integrate key technologies in quantitative economic models.
7. **GLOWA III: GLOWA: Jordan River Project Phase III (2009-2011).** Member of Steering Committee of GLOWA Jordan River Project Phase III for the period (2009-2011). Coordinator of the of GLOWA Jordan River Project Phase II and Phase III for Jordan for the following subprojects:
 - Project 1: Integration and communication of strategies (Project 1.1: Scenario analysis of strategies, Project 1.2: WEAP analysis, and Project 1.3: Communication of results).
 - Project 2: New water: This project deals with the basic question, “What is the potential for new (blue) sources of water to address current and future needs of people and ecosystems in the region.

- Project 3: Green water management: Water and land interactions in agricultural and natural systems, this project includes the following subprojects: Project 3.1: Climate and land use change effects on natural and semi-natural ecosystems and their feedback on the hydrological system, Project 3.2: Assessing the socio-economic benefits of ecological system services and their integration into models of optimal land-use under climate change, Project 3.3: Integrated modeling of land-use change and environmental impacts
8. **GLOWA II (2006-2008):** GLOWA Jordan River An integrated approach to sustainable management of water resources under global change. Implemented by Eberhard-Karls-University of Tübingen.
 - Member of Steering Committee of GLOWA Jordan River Project Phase II and for the period (2006-2008).
 - The Story and Simulation (SAS) approach, which combines expert and stakeholder knowledge with the scientific methods from the other projects in GLOWA JR, to derive comprehensive and coherent scenarios on global change impacts and possible adaptation strategies; and
 - The Water Evaluation and Planning tool (WEAP) with a GIS, for simulation and visualization of water availability, demand and quality for a range of global change scenarios and the consequences of various adaptation measures for the water system.
 - Sub-Project 8: Water quality issues, lower Jordan River
 9. **MEDITATE project (2002-2006):** Participation as core investigator for Cost-effectiveness analysis of **M**editerranean **D**evelopment of **I**nnovative **T**echnologies for integr**A**ted wa**T**er management. BRGM. Water division, RMD Unit, Montpellier. Project co-funded by the European Commission within the Sixth Framework Programme (2002-2006) The MEDITATE project is about integrated water management for limited water resources in Mediterranean countries, considering specifically the use of alternative water resources such as submarine springs, desalination and/or water reuse including development of a decision support system that will allow to integrate different types of knowledge (from physical to socio-economic fields), inclusive all social actors, in a decision making processes
 10. **Harvard Middle East Water Project (1998-2001):** Participate in. Analyzing agricultural demand for water with an optimizing model. Lead development of decision support models of the water economies of Jordan. Participate in the development of the Agricultural Sub-model (AGSM), SAWAS which allocate Water in an optimal way using different water qualities for different seasons.
 11. **Badia Benchmark Project (2000-2006):** Team Leader of Socioeconomic components of Community-Based Optimization of the Management of Scarc Water Resources in Agriculture in West Asia and North Africa implemented by International Center for Agricultural Research in the Dry Areas ICARDA. National Center for Agricultural Research And Technology Transfer NCARTT.
 12. **Mashreq-Maghreb Project II, (1998-2001):** Socioeconomic Team Leader. Community Approach to the Development of Integrated Crop/Livestock Production in the Low Rainfall Area. Implemented by the National Programs of Algeria, Iraq, Jordan, Lebanon, Libya, Morocco, Syria, and Tunisia. Coordination and Technical Support by International Center for Agricultural Research in the Dry Areas (ICARDA) International Food Policy Research Institute (IFPRI)
 13. **Mashreq-Maghreb Project I (1995-1998):** National socioeconomic officer: The Mashreq/Maghreb project (1995-1998) with the title “The Development of Integrated Crop/Livestock Production in low Rainfall Areas of the Mashreq and Maghreb regions.

Professional Consultations

A. Environmental Economics

1. Mainstreaming marine biodiversity conservation into coastal management in the Aqaba Special Economic Zone, Socioeconomic Report (2009).. Via Nova Consultancy. UNEP
2. The impact of growth of fixed assets and adoption of technology on the agricultural output and the environmental consequences in Jordan. (2002) Commissioned by Food and Agricultural organization of the United Nation (FOA), submitted to the Department of Statistics, Amman, Jordan. TCP/JOR/065.
3. Monitoring, assessing and quantifying environmental damages to water, agricultural resources, terrestrial and marine ecosystems due to golf crisis in 1990. Section IV: Monitoring, Assessing and Quantifying Damage to Agricultural Resources. Claims for Environmental and Natural Resources Damages. Submitted to Government of Jordan, UNCC.
4. Participation in the Study "Cost of Influx of Palestinian Refugees into Jordan." (2004). Refugees' Studies Unit, Ministry of Foreign Affairs. Jordan.
5. Participation in the study "The Impact of Palestinian Refugees on Jordan's Environmental Resources; Agriculture and Soils" Studies Unit, Ministry of Foreign Affairs. Jordan
6. The Impact of Palestinian Refugees on Jordan's Environmental Resources; Natural Environment & Biodiversity Rangeland, Forest, Wetland and Wildlife study. Studies Unit, Ministry of Foreign Affairs. Jordan
7. The Impact of Palestinian Refugees on Jordan's Environmental Resources; Land Mines. Studies Unit, Ministry of Foreign Affairs. Jordan
8. The Impact of Palestinian Refugees on Jordan's Environmental Resources; Water Resources. Studies Unit, Ministry of Foreign Affairs. Jordan
9. The Impact of Palestinian Refugees on Jordan's Environmental Resources; Air Quality. Studies Unit, Ministry of Foreign Affairs. Jordan
10. The Impact of Palestinian Refugees on Jordan's Environmental Resources; Cultural Heritage. Studies Unit, Ministry of Foreign Affairs. Jordan
11. The Impact of Palestinian Refugees on Jordan's Environmental Resources; Marine and Risk Assessment. Studies Unit, Ministry of Foreign Affairs. Jordan
12. The Impact of Palestinian Refugees on Jordan's Environmental Resources; Solid and Hazardous Waste. Studies Unit, Ministry of Foreign Affairs. Jordan.

B. Agricultural Feasibility Studies

13. Participation as Financial analyst & agricultural Economist in the study "Development of Marketing Infrastructure for Horticultural Products in Jordan: (2006). "Economic indicators and Action Plan" Prepared for Ministry of Agriculture. By University of Jordan- Center for Consultations, Technical Services, & Studies, Arab Analysts for Consultations, Kelly Harrison Associates (Virginia, USA)
14. Participation as Financial analyst & agricultural Economist in the study Technical and Financial Feasibility Study of Horticultural Marketing Company in Jordan (2006). Prepared for Ministry of Agriculture. ECO Consult (Amman, Jordan). Kelly Harrison Associates (Virginia, USA)
15. Conducting the Feasibility Study of Dairy Cattle Farm. (1996). Commissioned by Nour Al-Hussein Foundation. Prepared in Collaboration with the International Center for Development (ICD), Amman, Jordan. (in Arabic)
16. Participation as Financial analyst in "Feasibility Study of Producing Olive Paste from Olive Cake in Jordan"-Market, Technical and Financial Studies (1997). Submitted to the Jordanian Investment Inc., in collaboration with Quality Consultancy Company (QCC), Amman, Jordan.(in Arabic)
17. Participation as Financial analyst in the study "Development and Modernization of Slaughterhouse of the Jordan Poultry Processing and Marketing Company Ltd. Oct. 1998. Submitted to the Jordan Poultry Processing and Marketing Company Ltd. Sponsored by the Industrial Development Bank (IDB). Prepared in collaboration with Quality Consultancy Company (QCC).
18. Conducting the Feasibility Study of Shami Goat Production in Jordan. (1996). Commissioned by Nour Al-Hussein Foundation. Prepared in Collaboration with the International Center for Development (ICD), Amman, Jordan. (in Arabic)
19. Conducting the Feasibility Study of Producing Medical Plants in Jordan. (1996). Commissioned by Nour Al-Hussein Foundation. Prepared in Collaboration with the International Center for Development (ICD), Amman, Jordan. (in Arabic)

C. Agro-Industrial and Industrial Feasibility Studies

20. Participation as financial analyst in the "Feasibility Study for creation and operation of bagging and handling unit (2000). Submitted to the Numira Mixed Salt and Mud company, in collaboration with Quality Consultancy Company (QCC), Amman, Jordan.
21. Participation as financial analyst in "Pre-Feasibility Study of Producing Aluminum Sulfate in Jordan"-Market, Technical and Financial Studies (1999). Submitted to the Jordanian Investment Inc., in collaboration with Quality Consultancy Company (QCC), Amman, Jordan.
22. Participation as financial analyst in " Feasibility Study for "Payphone Project" in the Republic of Yemen." (August 1999). Prepared for the International Telecommunication Center, in collaboration with Quality Consultancy Company (QCC), Amman, Jordan.
23. Participation as financial analyst in "The Pre-feasibility Study of Phosphorus-Based Flame-Retardant in Jordan-Market, Technical and Financial Studies" (1998). Prepared for the Industrial Development Bank (IDB) of Jordan and funded by the Arab Fund for Economic and Social Development (AFESD), in Collaboration with the International Center for Development (ICD) and Quality Consultancy Company (QCC), Amman, Jordan.
24. Participation as financial analyst in "The Pre-feasibility Study of Carpet Backing in Jordan"-Market, Technical and Financial Studies (1998). Prepared for the Industrial Development Bank (IDB) of Jordan and funded by the Arab Fund for Economic and Social Development (AFESD), in Collaboration with the International Center for Development (ICD) and Quality Consultancy Company (QCC), Amman, Jordan.

25. Participation as financial analyst in "The Pre-feasibility Study of Powder Coating in Jordan"-Market, Technical and Financial Studies (1998). Submitted to the Industrial Development Bank (IDB) of Jordan and funded by the Arab Fund for Economic and Social Development (AFESD), in Collaboration with the International Center for Development (ICD) and Quality Consultancy Company (QCC), Amman, Jordan.
26. Participation as financial analyst in " The Techno-Economic Feasibility Study of Biogas Production in Jordan (1998). Submitted to PlanEnergi, Denmark, Jor-Dan Energy Group and Industrial Development Bank (IDB), in collaboration with Quality Consultancy Company (QCC) and United Group Consulting & Management Co.
27. Participation as financial analyst in the study "Investment and Development Opportunities of the Pesticides Industry in Jordan" Sept. 1998. Submitted to the Industrial Development Bank (IDB), funded by the Arab Fund for Economic and Social Development (AFESD), prepared in collaboration with Quality Consultancy Company (QCC).
28. Participation as financial analyst in the feasibility study of "Production of Kaolin as Pesticide Fillers". Dec. 1998. Submitted to the Industrial Development Bank (IDB), funded by the Arab Fund for Economic and Social Development (AFESD). Prepared in collaboration with Quality Consultancy Company (QCC).
29. Participation as financial analyst in the feasibility study of "Plastic Packaging of Pesticides". Dec. 1998. Submitted to the Industrial Development Bank (IDB), funded by the Arab Fund for Economic and Social Development (AFESD). Prepared in collaboration with Quality Consultancy Company (QCC).
30. Participation as financial analyst in the feasibility study of "Production of Macroemulsion and Microencapsulation Pesticides ". Dec. 1998. Submitted to the Industrial Development Bank (IDB), funded by the Arab Fund for Economic and Social Development (AFESD). Prepared in collaboration with Quality Consultancy Company (QCC).
31. Participation as financial analyst in "Feasibility Study of the Investment of Arab Revolt Plaza in Aqaba, Floating Hotel and Amusement Park (1997). Submitted to the Industrial Development Bank (IDB) of Jordan, in collaboration with Quality Consultancy Company (QCC), Amman, Jordan. (in Arabic)

D. Water Economics & Feasibility Studies

32. Participation as financial analyst in "The Economic and Financial Feasibility of the Water Supply and Sanitation for Seven Urban Centers in Yemen (2005-2007)". For Ministry of Water and Environment, Republic of Yemen. By Consulting Engineering Center, Sajdi & Partners.
33. Participation as financial analyst in "Consulting services for technical and economic feasibility study and final design of the wastewater collection, treatment and effluent reuse for Jerash area". (February, 2004). Jordanian Consulting Engineer Co. Ministry of Water and Irrigation. Amman. Jordan.
34. Participation as financial analyst in "Consulting services for technical and economic feasibility study and final design of the wastewater collection, treatment and effluent reuse for Sukhna area". (January, 2004). Jordanian Consulting Engineer Co. Ministry of Water and Irrigation. Amman. Jordan.
35. Participation as financial analyst in the Final Updating of "The Economic Feasibility Study of Al-Wehdah Dam Project" (April 2002). This study was conducted in collaboration with the Ministry of Water and Irrigation. The Arab Fund for Economic and Social Development (AFESD) agreed to finance this project with 150 million US Dollars in May, 2002. This project is now under construction.
36. Participation as financial analyst in the updating of "The Technical, Financial and Economic Feasibility Study for Mujib and Southern Ghors Irrigation Project – Stage II" (1997). This study was conducted in collaboration with the Ministry of Water and

Irrigation. The Arab Fund for Economic and Social Development (AFESD) agreed to finance this project with 135 million US Dollars in December, 1997.

37. Participation as financial analyst in the updating of "The Economic Feasibility Study of Al-Wehdah Dam Project" (1998). This study was conducted in collaboration with the Ministry of Water and Irrigation. The Arab Fund for Economic and Social Development (AFESD) agreed to finance this project with 150 million US Dollars in December, 1999.
38. Participation as financial analyst in Economic and Financial Assessment of the Jordan Rift Valley, Jordan Rift Valley Improvement Project. (2000), World Bank with the cooperation of Ministry of Water and Irrigation (team member).
39. Participation as financial analyst in The Economic Feasibility of the Reuse of Treated Wastewater in Makrabah Area and in the Northern Jordan Valley (1998), upon the request of Jordan Valley Authority – Ministry of Water and Irrigation.

E. Production and Resources Economics

40. Water pricing and its implication in the irrigated agriculture in Jordan (2002) participated with Dr. Amer Salman. Commissioned by FAO-Cairo Office. Cairo Egypt.
41. Using Seemingly Unrelated Yield and Area Equations to Predict Cereal Grain Outputs in Jordan (2002) with a participation of Dr. Amer Salman. Commissioned by Deutsche Gesellschaft für Technische Zusammenarbeit (GTZ) GmbH. Amman, Jordan.
42. Participation in the development of the Agricultural Sub-Model "AGSM". (1997-1998) in collaboration with Harvard Middle East Water Project, Harvard University, John F. Kennedy School of Government, Institute of Social and Economic Policy in the Middle East/ and The Regional Office for International Development, Amman. Jordan. This project aims to predicting water demand and optimization of agricultural water use.
43. Forecasting Models for Wheat Production in Jordan (1999) by Emad Al-Karablieh and Amer Salman. Commissioned by Deutsche Gesellschaft für Technische Zusammenarbeit (GTZ) GmbH. Amman, Jordan.
44. Models for Forecasting Barley Production in Jordan (An Econometric Approach) (1997) by Amer Salman and Emad Al-Karablieh Commissioned by Deutsche Gesellschaft für Technische Zusammenarbeit (GTZ) GmbH. Amman, Jordan.
45. Agricultural Sector Assessment of Jordan. Commissioned by Food and Agricultural organization of the United Nation (FOA), submitted to the Ministry of Agriculture, Amman, Jordan. TCP/JOR/066.

F. Socio-Economic Studies

46. Participation in "Market Survey to Identify the Present and Future Job Opportunities for the Poor of the Rural Areas". The Regional Centre on Agrarian Reform and Rural Development for the Near East (CARDNE). Submitted to the Ministry of Social Development, Food Security Project. Commissioned by European Union.
47. Team Leader of "The Socio-economic Study of Agricultural Resource Development Project in Yarmouk Basin". (2002) The Regional Centre on Agrarian Reform and Rural Development for the Near East (CARDNE). Submitted to the Ministry of Agriculture
48. Team member of the Study "Developing the Private Sector Role in Agricultural Development". (2004) The Regional Centre on Agrarian Reform and Rural Development for the Near East (CARDNE). Submitted to the Ministry of Agriculture

Trainer in Local and Regional Training Programs

1. A training program "Macro-Economic Policies and Their Effects on Rural Finance". Near East-North Africa Regional Agricultural Credit Association (NENARACA) and Agricultural Credit Corporation. Amman- 27/08/2007-5/9/2007.

2. A training program in the field of Sustainable Finance Management and Policies for Small Producers and Cooperatives. Near East-North Africa Regional Agricultural Credit Association (NENARACA) and Syrain Rural Bank. Damascus. 1-10 Sept. 2006 .
3. Project Analysis Using Computer with Emphasis on Credit-Supported Projects. Near East North Africa Regional Agricultural Credit Association.(NENARACA). Regional Training Programme, Tunis . Monday 15-25/08/2005
4. Agricultural Project Analysis Using Computer. Agricultural Engineer Association. Amman-Jordan. 19/02/2005– Thursday 24/02/2005
5. Project Analysis Using Computer with Emphasis on Credit-Supported Projects. Near East North Africa Regional Agricultural Credit Association.(NENARACA). Regional Training Programme, Amman-Jordan. Monday 09/08/2004 – Thursday 19/08/2004
6. A training program in the field of sustainable finance management and policies for small producers and cooperatives. Near East-North Africa Regional Agricultural Credit Association (NENARACA) and Lebanon Ministry of Agriculture. Beirut- Lebanon 15-24/10/2002.
7. A training program in the field of sustainable finance management and policies for agricultural sector and Cooperatives. Near East-North Africa Regional Agricultural Credit Association (NENARACA) and the Libyan Agricultural Bank. Tripoli- Libya 13-23/10/2003.
8. A training workshop on Project Appraisal for Jordanian Refinery Company. In corporation with Dr. Fawwaz ElKarmi. 23-27/8/2003.
9. A training workshop on Project Appraisal for Jordanian Electricity Company. In corporation with Dr. Fawwaz ElKarmi. 24-27/9/2003.
10. A training program “Macro-Economic Policies and Their Effects on Rural Finance”. Near East-North Africa Regional Agricultural Credit Association (NENARACA) and Agricultural Credit Corporation. Amman- 18-23/9/2003.

Workshops and Conferences

1. The 3rd Regional Coordination meeting of the Project: Community-based Optimization of the Management of Scarc Water Resources in Central & West Asia and North Africa'.8-10, January 2007, Cairo, Egypt.
2. EU-FP7 proposal preparation workshop 27-29 March, 2007. Workshop held from 27th to 29th March, 2007 at Newcastle University. KBBE-2007-1-4-12 Policy and institutional aspects of sustainable agriculture, forestry and rural development in the Mediterranean partner countries.
3. Regional Workshop on the Natural Resource Valuation and Assessing the Impact of Water Resource Management Research in Agriculture. Organized by ICARDA. January, 6-11, 2005. Rabat, Morocco
4. The Environmental Valuation methodologies in a workshop titled Efficient Management of wastewater, it's treatment and reuse in the Mediterranean Countries, held at Al_al-bayt University funded by the European Commission and German Federal Ministry for Economic cooperation and Development (BMZ). June, 27-October 12, 2004
5. Participation in the 10th IUPAC International Congress on the Chemistry of Crop Protection, Emad Al-Karablieh and I. K. Nazer (2002) “Poster participation: Manufacturing, Handling and Using of Pesticides in Jordan:”. Basel- Switzerland.
6. Participation in the “III^{ed} Regional Technical Coordination & Planning Meeting” The Development of Integrated Crop/Livestock Production in the Low Rainfall Areas of the Mashreq and Maghreb Regions. Phase II. 13-15 November 2001. Organized by ICARDA, Aleppo, Syria.
7. Participation in the Workshop “ Property Right and Rangeland Management Systems. In corporation between NCARTT, IFPRI and ICARDA. 29-30 April, 2001.

8. Organization and participation in the Fourth Agricultural Scientific Conference, "*Scientific Research for Safe Agricultural Production*". 24-26 April. 2001. Jerash Private University. Jerash, Jordan.
9. Participation in the Second Conference of Euro-Mediterranean Forum of Economic Institutes. 29 & 30 Mars 2001. Marseilles, France.
10. Participation as trainer in the Advanced short course on Water Saving and Increasing Water Productivity: Challenges and Options" Faculty of Agriculture University of Jordan. Amman- Jordan, March 10-23, 2001
11. Participation in the Workshop on "Technical, Policy and Institutional Options for the development of communities in the dry Areas". 23-25 January 2001. Marrakech, Morocco, Organized by IFPRI, IDRC, ICARDA, and Institut National de la Recherche Agronomique de la Moroc.
12. Participation in the "II^{ed} Regional Technical Coordination & Planning Meeting" The Development of Integrated Crop/Livestock Production in the Low Rainfall Areas of the Mashreq and Maghreb Regions. Phase II. 9-11 November 2000. Algiers, Organized by ICARDA, and Institut Technique des Grandes Cultures.
13. Participation in the "Community Studies: Policy, Technology and Institutional Evaluation for Dryland Agriculture". 3-7 July 2000. Tal Ammara, Lebanon. Organized by ICARDA, the Lebanese Agricultural Research Institute.
14. Participation in the "The International Conference on Water Resources Management, Use and Policy in Dry Areas". 1-3 December 1999. Amman, Jordan. Organized by ICARDA, International Water Management Institute (IWMI), Ministry of Agriculture, Ministry of Water & irrigation, and the Islamic Development Bank.
15. Organization and participation in the third agricultural Jordanian scientific conference, "*Scientific Research in the Service of Agricultural Development*". 27-29 April. 1999. Mut'ah University.
16. Participation in the " *The First National Agricultural Conference* " 16-17. June 1998. Agricultural Engineers Society, Amman.
17. Participation in the " *The Fourth Jordanian Scientific Week*" 20-27. August 1996. Organized by the Higher Council for Science and Technology. In Jordan University for Science and Technology. Amman.
18. Participation in the " *Regional Symposium on Crop-Livestock Integration Systems in Dry Areas of WANA*" 6-8-November, 1995. Amman, Jordan. Organized by ICARDA.
19. Participation in the seminar "*Agricultural Policy Analysis in Jordan*". Dec. 1991. Organized by Food an Agriculture Organization of United Nation (FAO) and Ministry of Agriculture. Amman.
20. Organization and participation in the socio-economic group meetings for the Mashreq countries (1996-1997). The meetings discussed issues related to socio-economic studies that will be conducted in the Mashreq countries including a sheep fertility survey, adoption and impact of barley production technology, and adoption of livestock management and production technology and farmers' selection of germplasm.
21. Participation on the symposium "*Labor, Employment and Agricultural Development in West Asia and North Africa*." 13-15, June, 1988 ICARDA. Aleppo.
22. Participation in the " *The First Jordanian Conference of Plant Protection*." 3-5. October 1989. The University of Jordan, Amman.
23. Participation in the symposium" Rainfed field crops and farming systems in Jordan and the neighboring countries." 10-14 Sept. 1988. Organized by Faculty of Agriculture, and Ministry of Agriculture. Amman. Jordan.

Community Services

1. Team Member in the National Committee of Re-Negotiation of Jordan-EU partnership

- agreement. Re-Negotiation of agricultural protocols. Ministry of Agriculture (2004).
2. Team Member in the Development of Water Allocation Models in Jordan. A regional project in coordination between University of Jordan, Jordan University of Science and Technology & Hashemite University, USAID, MWI (2003-2004).
 3. Team Member in the agricultural section of the Study "Monitoring, assessing and quantifying environmental damages to water, agricultural resources, terrestrial and marine ecosystems due to golf crisis in 1990". Participate as agricultural economist in "Monitoring, Assessing and Quantifying Damage to Agricultural Resources." (2002-2003).
 4. Team leader of the "Agricultural Policy and Community Modeling" research component of Mashreg/Maghreb Project in Phase II. The Development of Integrated Crop/Livestock Production in the Low Rainfall Area of West Asia and North Africa. National Center for Agricultural Research and Technology Transfer (NCARTT) and ICARDA.
