

## 2<sup>nd</sup> MIDDLE EAST WOUND CARE & DIABETIC LIMB SALVAGE (WDLs) CONFERENCE

21<sup>st</sup> - 23<sup>rd</sup> of April 2016  
Grand Hyatt  
Amman- Jordan

### First Announcement

Three topics go hand in hand when discussing limb salvage: diabetes, chronic wounds, and chronic limb ischemia.

This conference is a meeting point for experts in these fields working together to stem the tide of limb loss due to these prevalent diseases. We are in an exciting era where science is making great advances in finding innovative and effective therapies with the final aim of amputation prevention.

In addition to the science presented, the meeting will provide multiple hands on workshops for doctors and nurses in wound care, interventional vascular, ultrasound and much more.

## Welcome Message

On behalf of the executive committee, the conference directors welcome you all to beautiful Jordan. This meeting brings together experts from great international, regional and local institutions to discuss advances in such critical areas as amputation prevention, diabetes, chronic limb ischaemia, and chronic wound care.

A few places in the middle east have what Jordan has to offer - political stability, great destinations to visit ( Petra, Jerash, Dead sea, etc), great weather and hospitable people.

Our cosmopolitan capital city, Amman, is a vibrant and impressive place with lots to see and do.

We extend a warm welcome to our esteemed guests, attendees, and invited speakers wishing them a wonderful event and an enjoyable stay in Jordan.
